FISH ARE BITING, SO EXCITING!!

Frank Pratt in conjunction with the Senior Resource Center of Sawyer County is presenting a fishing educational seminar with a day excursion later this summer.

FISHING EDUCATION SEMINAR & SUMMER OUTING

JULY 12, 2024 1-3pm

Should I attend this?

Have you avoided fishing because ...

1. Fishing is too hard, difficult to learn, boring and there's no one to help me learn. It's not for old people or shut-ins either.
2. Fishing is too expensive, especially on a tight family or personal budget.
3. You need a big boat because there are no good fishing spots for shore fishing nearby.
4. No one is willing to take me on their boat.
5. There is no recycle/re-use, make your own, or even cook your catch. Gotta have all fancy store-bought, cutting edge, expensive gear.
6. Fishing is mostly a solitary pursuit with little social interaction with friends, family, or even total strangers.
7. You need to catch lots of big fish to have fun- just being outside and enjoying the water isn't much fun.
8. Fishing isn't much of a big deal in Hayward, anymore. Our economy is just fine without fishing. (Hayward is NOT the Volunteer Capitol of the World.)
9. The quality of my life is way better without fishing, or without helping others to fish. I do just fine with bingo, cribbage, and the internet.
10. Climate Change is a hoax. Even if it is real we can't do anything about it. And it does not affect fishing much, anyway.

Whether you agree or disagree, join us for a lively discussion and positive learning experience. Good times and fun to be had by all

The first part of this program on July 12 will teach you how to make your own fishing tackle and give you tips on making the most of your efforts.

A group outing on pontoons on Nelson Lake will be scheduled at a later date to be determined sometime in the summer.

Learn tips and tricks to make the most of a successful fishing trip.

WHAT'S THIS ALL ABOUT?

Target Audience: Seniors, care givers, and residents in facilities who want to fish or are willing to help others fish. And for sure, family members and friends.

This program will help preview and plan group fishing trips to be sponsored by the **Fishing Has No Boundaries** program to be held later this summer. We will make lures and tie flies, learn about the latest hooks and knots, slip bobbers, circle c-hooks, cook your own catch AND help assemble a common-use supply of rod-reel combos for future fishing events. Be prepared to be amazed about family fishing economics. The price of gas and food is through the roof, but family fishing has never been a better bargain. How big? Come and find out firsthand.
